LAST ENGAGEMENT

- Founded and managed H. H. High School, a school at Brambe (A village 20kms from Ranchi, Jharkhand) which provides free education to the orphans and underprivileged children. (November 2009 – December 2021)

MAJOR INITIATIVES

- **REACH2teach** – The idea behind this campaign is to reach out to the villages in and around the school and create awareness amongst the parents and guardians to help them realize the importance of education and motivate them to send their children to school.
- **VOLUNTEER 2 teach** – An initiative that helps you reach the underprivileged children and gives you a platform to teach them.
- **VOLUNTEER2Teach Global** – An initiative that helps foreign nationals to come down to India and teach rural kids. So far 7 foreign volunteers have rendered their service by teaching at H. H. High School, Brambe.
- **Bless a Child** – An initiative that takes care of the educational expenses of educating orphan or extremely poor children.
- **Free Annual Rural Health Check-up Camp** - An initiative that offers free health check-up for students, their families and residents of neighbouring villages.
- **LIVE Classroom** - "LIVE Classroom" which started on 5th February, 2012 is an initiative through which people from all over the world can teach the kids and interact with them over online platforms. H. H. High School, Brambe was probably the first school in Jharkhand to start teaching through online modules.
- **Share Your Laptop** - The idea behind this initiative is to encourage and invite groups of students/volunteers to bring their laptops and teach the rural kids the basics of computers. Each volunteer/teacher is allotted a maximum of 4 kids. First half of the session is used in teaching the kids whereas the second half lets the kids practice whatever they have learnt in the session.

Date: 11-01-2022
